Hear Them Side by Side And Know Which Suits You Best

Buyers of Talking Machines should be firmly convinced that they have
chosen the make that seems best suited to their particular ideas of tone, etc.

There are several makes that are all that a talking machine should be,
but each has certain characteristics that appeal to different people. Opinions
differ as to what one is the best. There is no reason why you should not
buy the one that seems best to you as your opinion is just as safe and sound
as that of your friends.

There is only one way of knowing which make of talking machine
measures up with your ideas of talking machine quality—come to
Wissner's where you can hear the world's best side by side.

Comfortably seated in one of our large, airy sound-proof rooms and
a courteous attendant to serve you promptly, you may listen to the same
record on each machine. The acoustics and surroundings will be the same
for each and you can make a fair, unbiased decision.

Many people have chosen hastily and unwisely in the past through being
influenced by favorable surroundings, good acoustics and convincing sales-
men. Our salesmen do not recommend that you buy any certain make. You
are left to make a decision based on the merits of the machine that im-
presses you the most favorably.

That is the Wissner way of selling talking machines—it should be
your way to buy one.
